Property Description

Situated comfortably on a jungle mountain side overlooking the Pacific Ocean in the lush tropical Costa Rican rainforest, this fully furnished 2 bedroom, 2.5 bath estate villa boasts an extraordinary inspiring view. With over 16 acres of jungle acreage providing a buffer from the surrounding properties, this tropical-themed villa includes all the extraordinary furnishings that were personally selected by the current co-owner, a professional interior decorator. Toucan Alley Villa is positioned in a uniquely exceptional part of the coast of Central America where the radiant green tropical forest mountains dip dramatically into the ocean. From the over-sized main veranda, a private lanai or the inviting infinity-edge pool, you can sip your favorite drink while observing some of the most spectacular sunsets on earth and the visiting wildlife. Whale watching from this lofty location is just one of the activities that the new owner will be able enjoy.
