Property Description

A PRIVATE CARIBBEAN LIFESTYLE ESTATE WITH ITS OWN SIX HOLE GOLF COURSE | An ultra rare ocean view luxury compound rising above Costa Rica's southern Caribbean coast, personally curated and positioned as one of the most distinctive private estates in the region, featuring a professionally integrated six hole golf course woven naturally into the landscape, sweeping turquoise sea views, preserved tropical forest, and expansive grounds that feel like a boutique resort sanctuary. Offered as a true legacy property, this extraordinary estate overlooks the protected beauty of Cahuita National Park, delivering uninterrupted Caribbean panoramas, lush jungle canopy, and a level of privacy and land scale that is becoming nearly impossible to replicate along the coast. Mature gardens, rolling lawns, shaded verandas, ocean facing terraces, and winding pathways create a private retreat atmosphere designed for refined living, entertaining, and long term investment value.
