- 6.5 Bathrooms

Property Description

Perched high above the Pacific in the hills of Ostional, Finca Dreamland is a remarkable coastal estate defined by panoramic elevation, architectural clarity, and extraordinary land potential. From its commanding vantage point, uninterrupted views sweep across the Pacific Ocean and surrounding jungle canopy, where dramatic sunsets and coastal breezes shape the rhythm of daily life. Despite its exceptional privacy, the beaches, restaurants, and lifestyle of Nosara are just a 20–25 minute drive away. The estate spans approximately 46 acres (186,155 m²), offering a rare balance of scale, seclusion, and accessibility along one of Costa Rica's most desirable coastlines. At its center sits a 655 m² contemporary residence, thoughtfully positioned to engage the surrounding landscape and maximize the property's sweeping ocean views. The home embraces a refined open-concept design where expansive living spaces flow seamlessly between lounge areas, dining, and a sophisticated gourmet kitchen.
