- 2 Bathrooms

## Property Description

Welcome to the paradise of sustainable living! This property is not just a home but an oasis of exclusivity and sustainability. The plot is not only tastefully landscaped but also 100% off-grid, thanks to state-of-the-art photovoltaic technology. Here, you'll experience a harmonious blend with nature. The two independent housing units, constructed using the traditional Wattle-and-Daub technique, give this estate a rustic charm while providing modern comfort. This ancient building method utilizes a framework of woven sticks (Wattle) covered with a mixture of clay, earth, and often other materials (Daub). The result is not only extremely robust and durable but also imparts a rustic charm that perfectly harmonizes with the natural surroundings. The Wattle-and-Daub technique is a sustainable construction method that not only honors tradition but also creates timeless elegance. The high-quality furnishings reflect not only style but also quality – a place where you'll instantly feel at home.
