Property Description

This stunning luxury villa is located in the center of Tamarindo on a 5,000 m² lot surrounded by lush nature, offering breathtaking views of the ocean, Tamarindo Beach, the valley, and the mountains. With 550 m² of construction over two levels, it was designed by a renowned Costa Rican architect in a contemporary French style. The main house features 4 ocean-view bedrooms, a panoramic terrace, and a large pool overlooking the sea. There's also a separate 2-bedroom apartment with private access, ideal for guests or vacation rentals. Both structures can be combined into a spacious 6-bedroom home. Built less than a year ago and sold fully furnished and equipped, this villa is turnkey-ready and includes a private water tank. Its prime location provides easy access to Tamarindo, Langosta, Grande, and Avellanas beaches, and the area's top activities: surfing, sailing, fishing, fine dining, hiking, golf, and yoga.
