Property Description

This 3 BR 2 BA house is 1600 feet above Dominical facing a huge valley and the Talamanca mountains. The 7 acres of land have plenty of reasonably level areas for future construction, many mature fruit trees, a perfect spot for a pool and a lot of jungle and forest. It takes only 20 min to drive to Dominical and the beach, part on a very well maintained gravel road and part on a paved road. The house has 2000 sq ft upstairs with 2 bedrooms suites that each have their own bathroom and access to the huge covered porch. The bedrooms are on each end of the home and the kitchen, dining room, and living room are in the middle providing both privacy and access to common spaces. Everywhere you go in the house you have an amazing view. Downstairs there is a third bedroom completely separate from the rest of the house, so ideal for a rental or a B&B type of accommodation. Additionally, there is still room for a 4th bedroom, parking, storage, or a game room.
