Property Description

Reduced Price and Great Value! Casa Quebrada with its botanical park like, private setting is a secluded, thoughtfully planned luxury home and hobby farm located on 31 acres of prime Rio General river frontage. Nestled among 3 cascading waterfalls and 2 quebradas, creeks, it boasts an elevated buildable lot with private drive and panoramic views. Additional usable acreage makes the development possibilities endless: family estate, retreat or retirement playground, yoga or nature sanctuary, horse and cattle ranch, B&B or a bio-diverse sustainable living opportunity with excellent water sources, among others. The luxurious home features over 5,000 square feet of living space, including 4 bedrooms, office space, and 6 bathrooms. The home itself is thoughtfully placed next to a tranquil quebrada/creek and cascading waterfalls in the middle of approximately 17 acres of gorgeously landscaped green space.
