Property Description

The Terraces of San Martin Residence #4 is the "Crown Jewel" inside this gated community located in the exclusive Escaleras neighborhood near Dominical. In fact, this was the first home purchased here as it has the best features, ocean views, and location in the Terraces of San Martin. If you want to buy a residence inside this premier community, this home is easily the best of the best. Completed in 2017, this 3-bedroom, 3.5-bathroom 5,300 sqft villa has a highly sought-after modern design that buyers and vacation renters desire. Access to the home is via an elevated walking bridge from your private parking spaces. Unique to the community, this is the only home that features an elevated "rainforest walking bridge" that leads to the front door and a tropical pool area with lush green space overlooking the Pacific Ocean. If privacy is fundamental, only this villa enjoys this front-row corner location with a private infinity edge pool and an expansive garden area highlighted by a dramatic whitewater ocean view overlooking the Pacific Ocean.
