Property Description

Lot la Quebrada is a beautiful property, surrounded by the jungle adjacent to the banks of a stream that crosses a section of it. Just 5 minutes from downtown, the lot is easily accessible through the road that connects Samara with Nicoya, or at the other end on the annexed street that connects Samara with Playa Buena Vista. The lot has an almost perfect flat surface, which provides the perfect scenario for the construction of one or more houses with private access next to the main street. The lot has access to public services (electricity and water) and apart from that the necessary structure for other services such as the connection to the local internet network. This is a great location for those who are looking for the perfect place to build the home of their dreams, maintaining privacy and the scenic beauty of the surrounding jungle, but at the same time enjoying the comforts and easy access to the main beaches in the area: Samara, Buena Vista and Carrillo.
