Property Description

While the saying goes, "you have to see it, to believe it" this unique tropical home has a FEELING which is almost impossible to capture even with the amazing images you can review of this incredible estate. This 4 bedroom luxury residence is defined by the oversized spaces that flow through the homes and terraces. From the moment you enter the paver stone driveway and walk through the enormous, tropical, front door, you are greeted with a sense of space, depth, and grandeur which few homes in this area can offer as a premium grows on every inch of the Manuel Antonio area. The main living area has high cathedral ceilings and a massive open-air floor plan which hosts the cooks' kitchen, dining, and living spaces. The kitchen is enormous and is ideal for entertaining with stainless steel appliances and expansive counters all around. The living and dining areas flow seamlessly to both the front terraces, all complete with lounge seating from which you can marvel at all the wildlife, and the HUGE back terrace and pool.
