Property Description

Casa Carambola sits on a beautiful half-acre site inside the Hacienda Pinilla/JW Marriott Resort and Residential Community. The house is located inside Las Golondrinas a very exclusive residential community in the Hacienda that has a private beach access. This home is located at walking distance (300 yards) from this small privately accessed beach. The house has just one floor which makes it practical, easy to navigate and more comfortable. The open floor plan allows for spacious interiors which include a dining room, living room, and fully equipped kitchen. The kitchen opens to the pool and terrace area which allows socializing while preparing food. There is also a breakfast nook that opens from the kitchen's large window and overlooks the pool. The dining room/living room is equipped with folding doors that open up completely into the terrace and private pool area, this allows for in house ventilation and interaction among all areas of the house.
